

Welcome
to the
Engineering With Nature®
AN ATLAS

BOOK LAUNCH

U.S. Army Corps of Engineers
Engineering With Nature

National Building Museum • Washington, D.C.

January 16, 2019 • 10:30 a.m.-12:30 p.m.

WE WELCOME YOU TO OUR EVENT
TO RECOGNIZE THE PUBLICATION OF
*ENGINEERING WITH NATURE:
AN ATLAS.*

THIS BOOK SHOWCASES 56 PROJECTS
FROM AROUND THE WORLD THAT
ILLUSTRATE THE PRINCIPLES
AND PRACTICES OF
ENGINEERING WITH NATURE.
THE ATLAS WAS DEVELOPED TO
COMMUNICATE THE DIVERSITY
OF PROJECTS, CONTEXTS, AND
ORGANIZATIONS THAT
ARE ADVANCING WORLDWIDE
PROGRESS IN THE FIELD.

WE APPRECIATE YOU BEING PART
OF THIS LAUNCH AND HOPE THAT
YOU ARE INSPIRED BY THE BEAUTIFUL
PROJECTS IN THE ATLAS AND
THE MANY BENEFITS THAT CAN
BE ACHIEVED BY
ENGINEERING WITH NATURE.

The EWN Atlas Team is thankful for the many
individuals that shared valuable project information
and pictures in support of this project.

Program of Events

Call to Order Dr. Jeff King
Deputy National Lead
Engineering With Nature Initiative
U.S. Army Corps of Engineers

Welcome Mr. Chase Rynd
Executive Director
National Building Museum

Introduction of the EWN Atlas Dr. Todd Bridges
National Lead
Engineering With Nature Initiative
U.S. Army Corps of Engineers

Civil Works Perspective Mr. James Dalton
Director Civil Works
U.S. Army Corps of Engineers

Partner and Stakeholder Perspectives:

Ms. Catherine Wright, Director of Digital and Skills,
Flood and Coastal Risk Management, Environment
Agency, United Kingdom

Mr. Cees Brandsen, Managing Director, Executive Board
Member, Rijkswaterstaat, The Netherlands

Dr. Steve Thur, Director of National Centers for Coastal
Ocean Science, National Ocean Service, National Oceanic
and Atmospheric Administration

Mr. Don McNeill, Director of Natural Infrastructure
Initiative and Strategic Growth Manager, Caterpillar Inc.

Dr. Lynn Scarlett, Vice President for Public Policy and
Government Relations, The Nature Conservancy

Mr. Brad Pickel, Executive Director,
Atlantic Intracoastal Waterway Association

Ms. Mary Draves, Vice President of Environment, Health,
Safety and Sustainability, Chief Sustainability Officer,
Dow Chemical Company

Dr. Donald Leo, Dean of College of Engineering,
University of Georgia

Closing Remarks Dr. Todd Bridges

Networking Social

US Army Corps
of Engineers®

*EWN is the intentional alignment of
natural and engineering processes to
efficiently and sustainably deliver
economic, environmental, and
social benefits through collaboration.*

There are four critical elements that define the
EWN approach:

Using science and
engineering to produce
operational efficiencies

Using natural processes to
maximize benefit

Increasing the value provided by
projects to include social, environ-
mental, and economic benefits

Using collaborative processes to
organize, engage, and focus interests,
stakeholders, and partners

For further information about EWN and to
access the electronic version of the book,
please visit the following website:
